Biography: I began in ponies as a young child of 5, and the love affair has never ended. Reg. Welsh Mountain ponies came to the farm in 1969. We've had B's and C's, as well, but the "A" has always been the main focus. We are also trying to add a "D" to the group. We have imported several ponies to continue the true hill type in our Mountain ponies. After a trip to the UK in 2005, it returned my eye on all the sections of Welsh. We watched Lampeter, plus visited 39 studs in the surrounding areas. I ride hunt seat, saddle seat, dressage, stock seat, jumping, roping, cutting, reining and driving. Ponies have been and will continue to be my life's passion.
